### Child's Attendance

\_\_\_\_\_ Number of School Days in the Month

\_\_\_\_\_ Days Attended

\_\_\_\_\_ Days Missed

\_\_\_\_\_ Monthly Attendance Average

In order for your child to receive the maximum benefits of Head Start, regular attendance is *very* important. Children must maintain 85% attendance. You may refer to your Parent Handbook on policies or contact us. Parents are welcome in the center, and I encourage you to come in and see how important Head Start is for your child. Please call me if you have any concerns. Head Start families and teachers are a team!

\_\_\_\_\_  
Teacher's Signature

Divide the number of days the child attended by the number of school days for the month.

***E-413 The Good News Gazette***

Divide the number of days the child attended by the number of school days for the month.

For examples1:

Johnny attends 16 days and missed 2 days, thus there was 18 total school days. 16 divided by 18 equals .8888 which is rounded to 89%
